

CAMPERVANS 2020

#wohnfühlen

BÜRSTNER

#wohnfühlen

For over 60 Years Bürstner leisure vehicles have brightened the roads of Europe and beyond. The Bürstner success story is thanks to clever and visionary minds, qualified and dedicated employees and the many colleagues who are caravan and motorhome enthusiasts themselves. A lot has changed since the first Bürstner campervan back in 1986 and we are constantly welcoming and

embracing new challenges. Bürstner continues to innovate and lead the way with exciting and influential research and development, such as implementing the compact floorplans needed for the campervans. Everything is based on the premise of creating an atmosphere that feels just like home. Our motto is that you should feel at home from the very first moment you step inside. #wohnfühlen

BÜRSTNER

#sweetdreams

Did you know that people spend about a third of their lives sleeping? Of course – we all need our sleep in order to regain our strength, stay healthy and to be able to cope with daily life. Yet the number of hours we rest at night varies. As a general principle, it is true to say that quality is more important than quantity when it comes to sleep. The key factors here are peace of mind and the surrounding conditions in the “bedroom”. Whether at home or in the camper-

van: there should be no compromise when it comes to your mattress. Experts say that it should have different zones, with softer areas under the shoulders and hips, allowing the muscles to relax but still providing sufficient support for the bones. This is why Bürstner insists on five-zone memory foam mattresses which boast high resilience levels, variable zones and excellent durability. In each case it is essential to start with a high-quality slatted base.

BÜRSTNER

#wohnfühlen

Home is a place of great sentimental significance for us. Our feeling of homeliness - #wohnfühlen - resonates from all four walls, creating a space as lovely as home, with the excitement of an ever-changing vista. People who like harmony in their surroundings and furnish their home with style and taste understandably want the

same for their campervans. That's why we at Bürstner treat as sacred the feeling of #wohnfühlen, which simply can't be beaten. We consider every detail and development, so that feeling of space, ergonomic design and beautiful functionality work perfectly and harmoniously together.

Your recreational partner

Whether you are planning a short trip, a longer adventure or a weekend shopping spree in the city: The City Car is the perfect choice for all situations.

Well thought-out functionality, maximum storage space and high quality finishing flames enthusiasm and creates utmost flexibility.

A true everyday hero

Exterior advantages

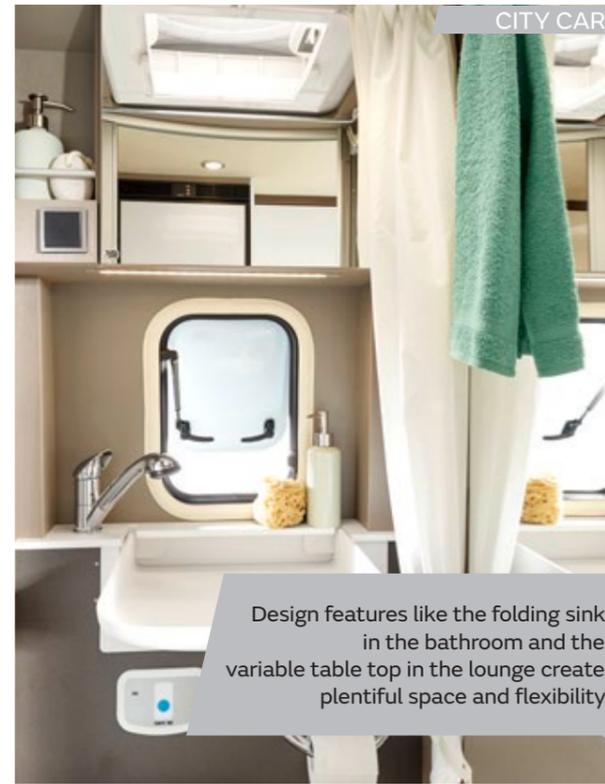

- + Vehicle width only 208 cm
- + Daytime running lights
- + Aluminium windows
- + Centrally locking cab and electric windows
- + ABS / ESP incl. Hill Holder

Interior advantages

- + Up to four belted travelling seats
- + Wardrobe lighting
- + Stainless steel sink, cover is chopping board
- + Self-retracting kitchen drawers
- + Ultimate sleeping comfort with 5-zone memory foam mattress
- + Headroom height 190 cm
- + Driver and passenger seats upholstered in coordinating lounge-area fabric

Compact without compromise - Burstner Campervans are surprisingly spacious!

Design features like the folding sink in the bathroom and the variable table top in the lounge create plentiful space and flexibility.

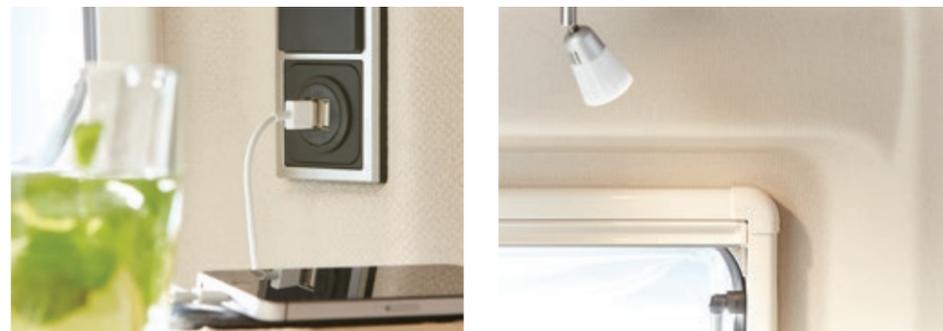

Delightfully luxurious upholstery and furniture, homely accessories and copious storage options.

Variations

The rear of the City Car really multi-tasks - a true quick-change artist! During the journey, you can safely transport your bicycles and equipment. Come evening, the rear of the City Car transforms to a comfortable and sleeping area (Fig. C 600). For example, as a transverse bed with a lowered bed above it (as here in the C 601).

Details

The City Car offers a full four USB power outlets for you to share and charge your tablets and smartphones en-route and on demand. The beautiful wall cladding has a textured touch, shown to best effect by one of the four reading spotlights distributed in the vehicle.

More highlights

Safe
The floor-mounted rings are sure to please travellers who want to secure their luggage or sports equipment.

Image and function
Elegant looks and improved aerodynamics. Wind noise is reduced, safety is increased, and sound insulation is optimised.

Night lighting
Optimally placed lighting guides your way in the dark and creates ambiance, too.

Everything on board
No space is compromised in the compact City Car. Clever storage options are hidden everywhere - like here in the floor.

Protection
Designed to allow you to unwind in the evening and stop insects from entering the vehicle and disturbing your peace.

ONLINE SERVICES

Online advisor

Which vehicle suits my needs? You answer a few questions about what you require in a motor-home then you are shown a selection of the most appropriate layouts in the Bürstner range.

Vehicle configurator

Configure your own dream-mobile. Once you have found the best layout, you can use the configurator to assemble your own ideal recreational vehicle in just a few steps.

SHOWROOM

Bürstner was one of the very first manufacturers to open a service centre complete with showroom, setting new standards in customer service. New products are on show here every season.

10 YEARS' IMPERMEABILITY GUARANTEE

#wohnfühlen is often associated with a comfortable and functional environment. For us, however, #wohnfühlen means so much more. It also represents peace of mind for our customers to own a product that benefits from 60 years of experience in building recreational vehicles. This experience is also reflected in the 10 years' impermeability guarantee that we give since the 2019 model year. The prerequisite is an annual check (with costs) by a Bürstner contract partner.

Local customer service is our strength

“Anyone who is out and about in a Bürstner should always experience an unlimited sense of comfort and well-being wherever they go.”

This aim relates to everything we do – and especially to our service. We were one of the first manufacturers to open a dedicated service centre for our customers in addition to the option of contacting us by telephone or through our trading partners. Service with a smile, face-to-face, one-on-one – so that you can enjoy your free time in your Bürstner and take back memories of an unforgettable experience.

Mobility without borders

When you buy a new Bürstner motorhome, you can rest assured knowing that you will be covered in the first year of motoring in the event of an accident or breakdown or if a driver is taken ill – and that's a guarantee.

The following services are included in the assistance package provided by the chassis manufacturer (Fiat only).

All the details are contained in your vehicle documents:*

- + Breakdown service at home and abroad
- + Recovery service from roadside to garage
- + Hotel accommodation (for up to three nights)
- + Delivery of spare parts to foreign countries
- + Courtesy car
- + Return of vehicle and repatriation of passengers

The design and colour of fixtures and fittings may vary from those illustrated, as is customary in the trade and due to the nature of the materials used. We also reserve the right to make technical modifications to the vehicle, provided that the overall quality of the product is not affected or is improved and provided that they do render the vehicle unfit for purpose. Some of the photographs feature optional extras or decorative items which are not supplied as standard with the product.

All prices are in euros. Price information corresponds to the information available at the time of printing. All price information reflects non-binding price recommendations from the Bürstner GmbH & Co. KG plant plus MOT.

Prices comprise the currently legal VAT of 20% and are subject to adjustment if tax rates change. Any errors or changes are reserved. All information is based on the features of the German market.

The technical data in this catalogue were current at the time of going to press. Although we check the content carefully, we cannot guarantee that the document is free of printing errors. We reserve the right to make changes to the features and improvements to the model in the course of the relevant year. The design and colour of fixtures and fittings may vary from those illustrated, as is customary in the trade and due to the nature of the materials used. We also reserve the right to make technical modifications to the vehicle provided that the overall quality of the product is not affected or is improved and provided that they do render the vehicle unfit for purpose. Before signing any contracts, please consult your local authorised Bürstner stockist for information on the latest products and models. All the prices quoted for accessories are as installed in new vehicles in the factory.

Any modifications to the factory condition of your vehicle may compromise its safety and roadworthiness. Please take heed of all the regulations relating to the safe use of your vehicle. Make sure that you are in possession of the correct driving licence to be allowed to drive a motorhome. Be aware of the "technically permissible maximum mass" of your vehicle and do not exceed this legal limit. Please note the axle load limits and make sure that the load is distributed according to the axle weight rating.

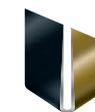

Roof fittings and aerials will alter the height of the motorhome. The overall length of the vehicle will increase if the rear ladder is fitted. The combinations of roof accessories which can be fitted on the vehicle will depend on the model in any given case.
